## OBJECTIVE

Computer Science undergraduate with strong skills in MERN Stack, DSA (C++), Python, SQL, and data analytics. Seeking an entry-level Software Engineer / Full-Stack Developer role to apply development and problem-solving skills in building scalable applications.

## INTERNSHIP

### Front-End Developer Intern

11/2024 – 05/2025

WATT Incorporate

Bhopal

- Built responsive UI components for IoT-based applications.
- Integrated Firebase Realtime Database for live sensor data visualization.
- Improved usability by optimizing layouts and resolving UI bugs.

## EDUCATION

### B.Tech – Computer Science Engineering

2022 – 2026

Samrat Ashok Technological Institute, Vidisha

- CGPA: 7.6 (Till 6th Semester)

### Higher Secondary (Class XII)

Alpine Academy

- Percentage: 90.2%

## SKILLS

**Languages** : C++, Python, SQL, JavaScript

**Web Technologies** : React.js, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS

**Tools** : Git, GitHub, VS Code, Power BI, Jupyter

**Core Skills** : Front-End Development, REST APIs, Data Analysis, UI/UX Optimization

**Soft Skills** : Communication, Teamwork, Leadership

## PROJECTS

### Library Management Website (MERN Stack, Tailwind CSS)

- Built a full-stack library management platform with secure backend and responsive UI.
- Integrated QR/UPI payments for book transactions.
- Developed an admin panel for analytics, book tracking, and user management.
- Implemented scalable backend services using Node.js, Express.js, and MongoDB.

### Banking Data Analysis (Python, MySQL, Power BI)

- Performed data extraction, cleaning, transformation, and SQL-based automation.
- Conducted EDA to identify customer trends and anomalies.
- Designed interactive dashboards and KPI reports in Power BI.

## ACHIEVEMENTS

- Solved 200+ DSA problems on LeetCode.

## CERTIFICATIONS

- Data Analysis with Python — IBM SkillsBuild
- Artificial Intelligence Fundamentals — IBM SkillsBuild
